Christián R. Vázquez

Computer Science Engineer | Full Stack Developer

Jatibonico, Sancti Spíritus, Cuba
Phone: (+53) 56449593
Email: christianrvdv.1999@gmail.com
GitHub: https://github.com/Christianrvdv
Portfolio: https://christianrvdv.netlify.app

PROFESSIONAL PROFILE

Computer Science Engineer and Full Stack Developer with experience in Symfony 7/8, Spring Boot 3, React and modern architectures. Specialized in REST APIs, microservices, security (JWT, OAuth2, 2FA) and Docker deployment. Able to take on the full development cycle: data modeling, business logic, frontend and deployment. Currently pursuing a Master's in Applied Informatics.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Freelance

Independent Projects | 2024 — Present | Remote

- SGR-Turnos: banking queue system with Symfony 8, JWT, rate limiting, auditing and Excel export.
- ComercioLocal: SaaS e-commerce with Stripe, OAuth2 (Google/Facebook), 2FA and Redis.
- Development of RESTful APIs and microservices with Spring Boot and Docker.
- Use of AI agents (Claude Code, OpenCode) with harness engineering to accelerate the development cycle.

Backend Developer — Local Development Center

2021 — 2024 | Sancti Spíritus, Cuba

- Development and maintenance of web applications with Java / Spring Boot and PHP / Symfony.
- Frontend development with HTML5, CSS3, JavaScript and Tailwind.
- Agile methodologies (Scrum), Git version control and technical support.

Software Development Intern — University of Informatics Sciences (UCI)

2018 — 2021 | Havana, Cuba

- Academic projects with Java, PHP and MySQL.
- Application of design patterns and best practices under supervision.

EDUCATION

Master's in Applied Informatics

Universidad José Martí (UNISS) | 2025 — Present

Specialization in distributed architectures and high-concurrency systems.

Computer Science Engineering

University of Informatics Sciences (UCI) | 2017 — 2022

Project-based education with emphasis on computing fundamentals, software engineering, databases and cutting-edge technologies.

TECHNICAL SKILLS

Languages: PHP 8, Java 17, JavaScript, TypeScript, SQL, Kotlin.

Frameworks: Symfony 7/8, Spring Boot 3, Node.js, React, Alpine.js, Twig, Stimulus.

Frontend: HTML5, CSS3, Tailwind CSS, React, TypeScript.

Databases: MySQL, Doctrine ORM, Redis.

DevOps & Cloud: Docker, Nginx, Apache, CI/CD, Git.

Architecture & Security: JWT, OAuth2, 2FA, Stripe, microservices (Kong), rate limiting, clean code.

AI-Assisted Development: Claude Code, OpenCode, GitHub Copilot, prompt engineering, harness engineering.

FEATURED PROJECTS

SGR-Turnos Web

React 19, Vite, TypeScript, TanStack Query, Zustand, JWT

SPA for banking appointment booking with protected routes, deduplicated refresh token, forms with React Hook Form + Zod and dark mode.

https://github.com/christianrvdv/sgr-turnos-react-web

SGR-Turnos-Bandec (Mobile App)

Android, Kotlin, Jetpack Compose

Native app for banking queues with JWT, offline sync and push notifications.

ComercioLocal SaaS

Symfony, Stripe, OAuth2, 2FA, Redis

E-commerce platform with shopping cart, admin panel and Stripe payments.

app_almacen

Symfony 7

Inventory control, PDF invoicing (dompdf) and metrics dashboard.

https://github.com/Christianrvdv/app_almacen

Auth System + JWT

Symfony

JWT authentication, Voters, auditing and unit tests.

https://github.com/Christianrvdv/auth-system

Library Microservices

Spring Boot, API Gateway (Kong), Eureka

Microservices architecture with asynchronous communication.

https://github.com/Christianrvdv/sistema-biblioteca-microservicios

BANCEC App

Android, ZXing

Magnetic card request with QR, Excel export and statistics.

https://github.com/Christianrvdv/SolicitudtarjetaBANDEC

LANGUAGES

Spanish: Native.

English: Basic (A2).
